

Ingredients:
3 tablespoons oil
1/3-1/2 cup popcorn
sea salt to taste

Directions:
Add oil to a large pot and drop in 3-4 kernels. Set burner to medium high.

Cover with a lid and wait for the initial kernels to pop. After they pop, add the remaining kernels and re-cover the pot.

When the kernels start popping, begin shaking the pot from side to side, keeping it close to the burner.

Continue shaking the pot until the popping slows. Immediately transfer the popcorn to a bowl. Salt to taste.
